

**A+N\_Installation\_Transparency&Fluidity**

## Installation glass pieces - list of necessities

---

items:

Distance holder

Screw

Plug

Hex key 1,5mm

# Installation manual

---

Step 01: Define the hanging points on the wall for each item, see photo's sent to you.

Step 02: Hold the artwork against the wall and mark the hanging point just below the glass. Don't leave a gap as this will result in too much spacing.

Step 02: Drill the holes

Step 03: Place the plugs and attach the outer part of the mounting piece with a screw

Step 05: Mount the glass by holding it against the mounting pieces and fastening the interior pins and bolts

## **code of conduct**

-

We work with companies that offer the highest quality materials and techniques, and who are willing to stretch boundaries with us.

We aim to work locally and responsibly, improving the well-being of people and planet.
