

A+N_Installation_Glass Objects

Installation glass pieces - list of necessities

items:

Plug

Distance holder

Screw

Screw driver

Installation manual

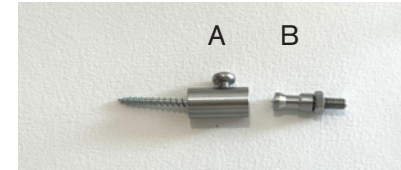

Step 01: take apart the distance holder and screw part B in the back of the glass

Step 02 Mark the hanging points on the wall by holding the glass item against the wall and draw around the metal parts B to define the drilling hole

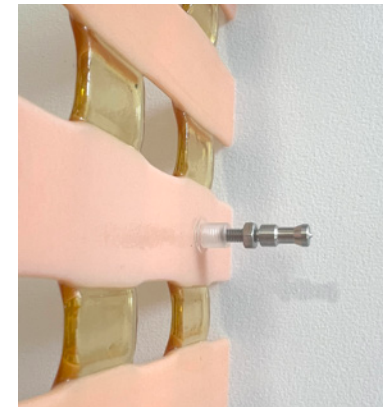

Step 03: Drill the holes (drill 6 to use the plugs)

Step 04: Place the plugs and attach part A of the distance holder with a screw

Step 05: Mount the glass by sliding parts B into parts A and secure by attaching the screw on part A

Distance holder parts

Step 01

Distance holder secured to the wall and attached to the glass

code of conduct

-

We work with companies that offer the highest quality materials and techniques, and who are willing to stretch boundaries with us.

We aim to work locally and responsibly, improving the well-being of people and planet.
